

RAKESH SAMALA

rakeshsamala0505@gmail.com | +91 7032895953 | [LinkedIn](#) | Hyderabad, India

SUMMARY

Software Engineer with 1+ year of production experience building and deploying scalable web applications. Passionate about writing clean, maintainable code and delivering reliable software. Quick learner, collaborative team player, and eager to solve real-world engineering challenges.

SKILLS

Languages: C++ (DSA), Python, Java, JavaScript.

Web & Backend: React.js, Node.js, MySQL.

Tools & Practices: Git, GitHub Actions (CI/CD).

AI / Cloud: Deep Learning basics, LLM concepts, Azure (learning)

EXPERIENCE

Young Professional II — Software Engineer — Indian Institute of Millets Research (IIMR) Nov 2024 – Present
Hyderabad, India

- Built and maintained full-stack web applications using React.js and Node.js with agile delivery.
- Integrated backend APIs with MySQL databases for high availability and data consistency.
- Deployed and managed production applications on CTRLS enterprise data servers, handling server configuration, database hosting, and end-to-end deployment pipelines.
- Conducted code reviews and resolved production bugs through systematic debugging and log analysis.
- Worked directly with stakeholders to gather requirements and translate them into working features.

PROJECTS

Weapon Detection System — Python, YOLOv4, OpenCV Aug 2023

- Built a real-time object detection system from scratch — dataset prep, model training, and evaluation.
- Implemented video stream analysis to classify and localize objects with YOLOv4.
- Explored inference optimization to improve detection speed and accuracy.

Traffic Management System — Java, SQL Aug 2022

- Designed a Java + SQL application to simulate real-time traffic flow across a city network.
- Applied database normalization and query optimization for efficient data handling.

EDUCATION

B.E. Computer Science & Engineering — Malla Reddy Institute of Engineering & Technology 2019 – 2023
Hyderabad, India

Intermediate (MPC) — Tejas Junior College 2017 – 2019
Warangal, India

SSC (10th Grade) — Sahasra Concept School 2016 – 2017
Chinnapendyala

Achievements & Learning

- LeetCode:** 100+ problems solved in C++ and Python — focused on DSA and algorithms.
- Self-studying Generative AI, LLMs, and Azure cloud services.
